### **About the Work:**

**Inês D'Orey's** artistic work focuses on the transformation of the heritage identity of the contemporary city, where the architectural object presents itself as a subject of memory, changing its meanings over time. The architecture, the polis, the border between public and private space, the investigation of places and their contexts are some of the elements that make up her body of work, whose main medium is photography, although mixing it with installation and video.
